

# Cloud security incidents skyrocketed by 154% from 2023 to 2024.

## Were you affected?

### THE FACTS

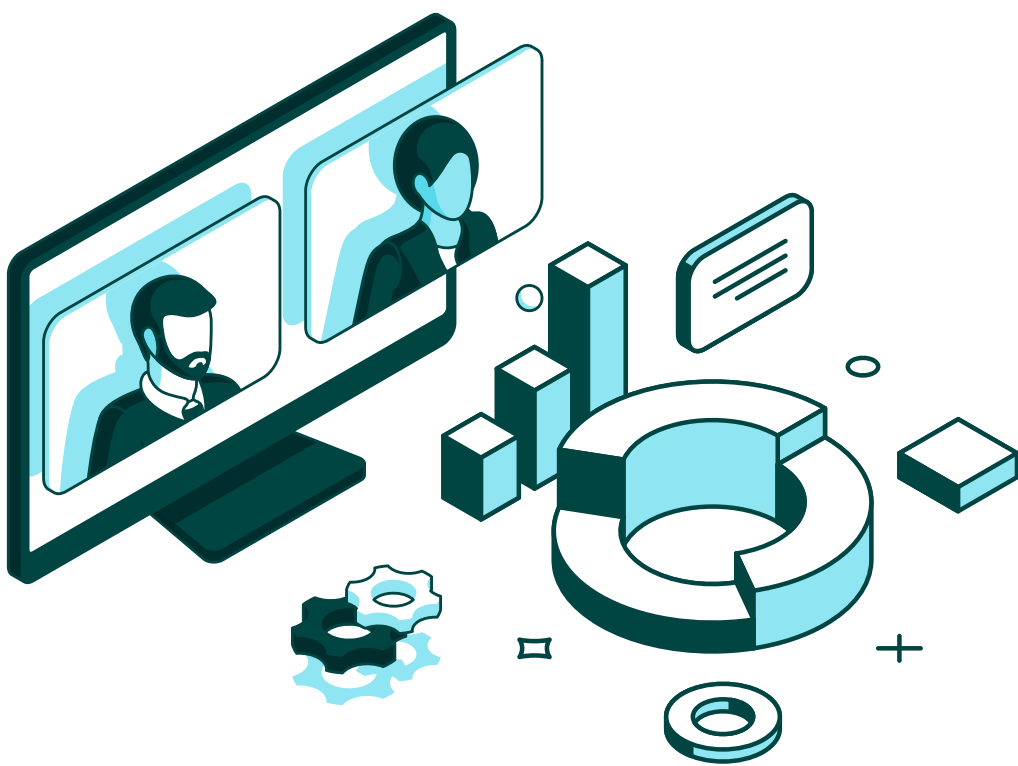

A staggering 81% of organizations in the cloud say cloud security is a top challenge.<sup>1</sup>

According to Gartner, “Through 2025, 99% of cloud security failures will be the customer’s fault.”<sup>2</sup>

A mere 23% of organizations report they have full visibility into their cloud environments.<sup>3</sup>

The average time to identify and contain a breach of data stored in the public cloud is 268 days.<sup>4</sup>

As the most comprehensive managed security services for organizations born in the cloud or on a new cloud journey, Fortra XDR and Fortra’s Alert Logic MDR provides unrivaled cloud security.

One way to see if you cloud deployments are effective and the strength of your cloud security posture is through the CIS Benchmarks. For deployments in AWS, the CIS Benchmarks check for critical controls that create secure configurations, including:

- ✓ **Increase your confidence and eliminate risks** by regularly measuring your performance against the benchmarks.
- ✓ **Ensure the reliability of your power users’ authorization** through the consistent use of MFA and know immediately when MFA is not enabled on accounts.
- ✓ **Avoid data leakage and loss** by immediately detecting and hardening unsecured S3 bucket configurations.
- ✓ **Maintain your visibility and responsiveness** by detecting and resolving any changes to the configuration of data sources like AWS CloudTrail and AWS Config.

Fortra’s Alert Logic provides visibility to all these security checks, ensures continuous awareness, and creates a compensating control for more than 70% of monitoring check failures automatically.

About Fortra

Fortra is a cybersecurity company like no other. We’re creating a simpler, stronger future for our customers. Our trusted experts and portfolio of integrated, scalable solutions bring balance and control to organizations around the world. We’re the positive changemakers and your relentless ally to provide peace of mind through every step of your cybersecurity journey. Learn more at [fortra.com](https://fortra.com).
