FORTRA®

DATASHEET (OFFENSIVE SECURITY)

Offensive Security Trainings

Our hands-on, lab-driven courses are purpose-built in partnership with Zero-Point Security. These offerings enable red teamers to refine real-world tradecraft, help penetration testers upskill into high-impact offensive techniques, and equip offensive security operators with the practical capabilities required to execute effective engagements. Whether you're just beginning your journey or advancing into leadership, our training paths ensure you gain maximum value from industry-leading tools such as Cobalt Strike and Core Impact.

Red Team Ops Trainings

Red Team Operations Training I

This Red Team Ops I training course, created by Zero-Point Security, provides you with the knowledge and skills necessary to excel in performing adversary simulation and emulation exercises with Cobalt Strike.

- **Author:** Daniel Duggan
