

FORTRA[®]

SOLUTION BRIEF

Meet Fortra[®]

A centralized, unified platform that breaks the attack chain—at any stage

You Can't Fight Confusion with Complexity

Technology sprawl, emerging risks, and hybrid workforce are not the only reasons why organizations today are overwhelmed. They are confused by the abundance of cybersecurity tools providing mitigations but not solutions. The result? Increased spend, expanded exposure to hidden threats, and cybersecurity complexity.

Enter Fortra with a centralized, unified approach that simplifies cybersecurity, putting all the essential Fortra technologies together in one platform. Think of it as a unified environment for all your Fortra solutions—and one that's explicitly designed to break the attack chain at any stage.

The Fortra Platform: A Unified Security Approach

Everything about Fortra's platform is streamlined. Now you can:

Simplify sprawl by managing hundreds of customers or security products from a single solution. Key features include:

- One login
- One UI across tools
- One centralized HQ

Simplify spend with tiered pricing that activates essential, advanced, and elite defensive capabilities. Key benefits include:

- One trusted vendor
- One seamless way to save as you scale

Simplify security by bringing interoperable capabilities across vulnerability management, cloud email protection, data loss prevention, data classification, and human risk management solutions together to help break the attack chain. Key features include:

- Central dashboard to see the big picture
- App switcher for easy back-and-forth
- Event Fusion Center for real-time visibility across solutions
- Centralized notifications

Key Advantages of Fortra Platform

Unified Security Experience – Access your Fortra solutions from one intuitive platform with a single login.

Stronger Visibility & Control – Get real-time insights into your security posture and events in one place.

Faster Threat Response – Detect, investigate, and remediate incidents quickly with automation and streamlined workflows.

Actionable Intelligence – Leverage correlated threat data, vulnerability insights, and risk overviews to make smarter decisions.

Simplified Management – Reduce complexity with a unified agent and consolidated reporting, analytics, and incident handling.

Comprehensive Protection – Safeguard your organization with an integrated suite of Fortra security solutions covering email, data, identity, cloud, and human risk.

What the Industry Is Saying about Fortra

- “That’s amazing. I wish we had this 5 years ago.” —**Professional Services Firm**
- “We love the platform direction and want to be early adopters.” —**Leading APAC Cybersecurity Distributor**
- “We would love one agent.” —**Fortune 500 Professional Services Company**
- “I love the Fortra platform focus on business outcomes. Customers don’t care about tools anymore — they are looking for business results. Fortra is in the lead on this way of thinking.” —**Leading Cybersecurity Analyst**
- “Fortra is great at strategy. We want to talk with you about building a zero-trust strategy on your platform.” —**S&P 500 Semiconductor Manufacturing Company**
- “Fortra is 1 of 4 strategic partners we will have. Between what you’re doing in data protection and your platform, this is the direction we want to go.” —**S&P 500 Manufacturing Company**
- “Fortra will be one of three primary agents we’ll use in the future.” —**S&P 500 Technology Manufacturing Company**

One Vendor. One Platform.

The Industry Supports the Power of One

- 95% of security professionals favored using a single, unified cloud security platform, citing automation, consistent policy enforcement, and reduced talent constraints.” —[Cybersecurity Insiders](#)
- “Many organizations want to consolidate their security spending and reduce complexity with fewer vendors that have more and better-integrated capabilities... This phase will be defined by heightened competition among platform vendors.” —[Gartner 2024](#)
- “Nearly 70% of CISOs have consolidated or are consolidating tools into integrated platforms, and another 13% have made plans to do so...” —[IANS 2025](#)
- “Security tool consolidation can help companies save an average of 16% of total tool costs and almost 20% of analyst hours.” —[IDC 2024](#)
- “Consolidation also is critical to improving organizational security ... it is expected to reduce mean time to respond (MTTR) by an average of nearly 21% and decrease remediation time by 19.5%.” —[CIO, citing the 2024 IDC North American Tools/Vendors Consolidation Survey](#)
- “Nearly 60% of organizations began consolidation efforts in 2023.” —[CIO, citing the 2024 IDC North American Tools/Vendors Consolidation Survey](#)
- Real-world pain of multi-vendor stacks: 74% of UK companies rely on multi-vendor ecosystems; 36% say stacks are “overly complex,” 43% cite lack of cross-platform integration, and 36% report budget overruns due to overlapping tools. ([IT Pro](#))

A Single Platform to Break the Entire Attack Chain

As organizations look to future-proof their cybersecurity strategies, the answer lies in doing more with less. **Fortra offers advanced offensive and defensive security solutions covering the entire attack chain.** Pulling from this unmatched arsenal, Fortra provides a cloud-native, multi-tenant cyber defense platform that delivers security, simply. To move towards a leaner, more strategic cybersecurity approach, [contact Fortra](#) today or [demo the Fortra platform](#).
