

# FORTRA

DATASHEET (Globalscape)

## Fortra's EFT Expert Services

Ensuring the deployment of technology at your organization is running smoothly and optimally is one of the keys to maximizing your cybersecurity investment. Doing so can minimize risk and disruption to your business as your team adapts new functionality for security and automation of your file transfer processes.

Fortra's EFT Expert Services for Globalscape is an available service that offers consultation on your ongoing projects, reviews of closed support projects, help with optimizing your solution's implementation, as well as delivering the training needed for your key users, which could otherwise take away priceless time from your busy IT staff.

### How it Works

When you select EFT Expert Services, a dedicated specialist will be assigned to your organization's point of contact to deliver scheduled meetings and consult with you on your ongoing projects, review closed support projects, and help you optimize your solution's implementation:

- **Expert advice:** You'll get assistance and advice on configuration changes in your environment and guidance on the design and deployment of Globalscape for your organization's needs.
- **Ad hoc training:** Your specialist will provide customized, ad hoc training on product features to help you maximize your organization's experience with the Globalscape solution.

### EFT Expert Services Scope of Services

#### Validate and Optimize Your Configuration

Get advice from one of our seasoned engineers via scheduled status review meetings to validate using best practices on how to configure your new requirements and optimize your EFT implementation. We will:

- Gather information on your environments for faster issue resolution
- Assist with EFT requirements and recommend additional use cases
- Provide guidance on any EFT upgrades
- Help with migration to cloud, Arcus, or data centers
- Advise how to scale your existing environments within your organization
- Guide you on server administration and automation configuration
- Discuss and review support case history

#### Fastrack Your Onboarding Teams

Speed up the onboarding of new teams or team members with:

- Scheduled meetings to understand your unique environment and governance structure
- Training on Globalscape feature use and best practice recommendations
- Product road map and release briefings
