EFT™ Quick Start Service

GlobalScape® Quick Start Service Accelerates EFT Implementation Within Your Organization.

We know you have many other responsibilities and priorities. Rather than adding EFT to your to-do list, let Globalscape put it together for you promptly with our Quick Start service.

A Globalscape Certified Professional will install and configure the solution, test it thoroughly, train your staff on basic operation and architecture, and document the settings. Get it done right the first time, with a system that's fully ramped up and ready for you to put it to work.

Three Days To File Transfer Automation

Quick Start service includes:

- Evaluating your file transfer needs and creating a requir ements document and implementation plan
- Mapping existing policies, standards and procedures, and recommending impr ovements where needed
- Developing event rules based on your workflow requirements
- Installing and configuring the solution within your network
- Training your staff in basic operation and architecture of the solution
- Testing connectivity internally and over the Internet

Duration/ EFT configuration:

- Basic: 1 day, 1 EFT node, 1 EFT Site, up to 2 Event Rules
- Standard: Up to 3 days, 1 standalone EFT node or 1 EFT HA cluster with 2 nodes, up to 2 EFT Sites, 1 Web Transfer Client (WTC) branding, up to 3 Event Rules
- Platinum: Up to 5 days, 1 standalone EFT node or 1 EFT HA cluster with up to 4 nodes, up to 4 EFT Sites, 1, WTC branding, 1 EFT Sync tool, up to 5 Event Rules

KEY RESULTS
