FORTRA™

Training and Certifications

GoAnywhere Managed File Transfer (MFT) is a powerful MFT solution and we want to make sure you and your team can take advantage of its robust feature set.

We have designed these courses for organizations to fully utilize GoAnywhere's powerful MFT features, maximize return on investment and to prevent costly misconfigurations or poor implementations.

The training series is designed for both new and experienced users and covers the most critical features of the software. Our training is flexible, we provide 3 different learning paths: Private Instructor Led Training (ILT), Public ILT, and elearning (self-guided). Visit training.fortra.com to get registered.

Multiple users can participate in each course at a time. The Product Specialist assigned to your training will begin each course with a short presentation that covers core training concepts for the class, followed by an extensive demonstration.

Get GoAnywhere MFT Certified

Show off your GoAnywhere MFT knowledge by completing training certifications. Each certification is composed of a series classes taught by our professional services experts, ready to get you on the fast track to file transfer success.

Upon successful completion of the Fundamentals, Administrator Associate, and Automation Associate certifications, you will receive an additional Expert Certification.

Available Courses

View all the available courses and their full descriptions here.
