GNU LIBRARY GENERAL PUBLIC LICENSE

Version 2, June 1991

Copyright (C) 1991 Free Software Foundation, Inc.
51 Franklin St, Fifth Floor, Boston, MA 02110-1301, USA

Everyone is permitted to copy and distribute verbatim copies of this license
document, but changing it is not allowed.

[This is the first released version of the library GPL. It is numbered 2
because it goes with version 2 of the ordinary GPL.]

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public Licenses are intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users.

This license, the Library General Public License, applies to some specially designated Free Software Foundation software, and to any other libraries whose authors decide to use it. You can use it for your libraries, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the library, or if you modify it.

For example, if you distribute copies of the library, whether gratis or for a fee, you must give the recipients all the rights that we gave you. You must make sure that they, too, receive or can get the source code. If you link a program with the library, you must provide complete object files to the recipients so that they can relink them with the library, after making changes to the library and recompiling it. And you must show them these terms so they know their rights.

Our method of protecting your rights has two steps: (1) copyright the library, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the library.

Also, for each distributor's protection, we want to make certain that everyone understands that there is no warranty for this free library. If the library is modified by someone else and passed on, we want its recipients to know that what they have is not the original version, so that any problems introduced by others will not reflect on the original authors' reputations.

Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that companies distributing free software will individually obtain patent licenses, thus in effect transforming the program into proprietary software. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all.

Most GNU software, including some libraries, is covered by the ordinary GNU General Public License, which was designed for utility programs. This license, the GNU Library General Public License, applies to certain designated libraries. This license is quite different from the ordinary one; be sure to read it in full, and don't assume that anything in it is the same as in the ordinary license.

The reason we have a separate public license for some libraries is that they blur the distinction we usually make between modifying or adding to a program and simply using it. Linking a program with a library, without changing the library, is in some sense simply using the library, and is analogous to running a utility program or application program. However, in a textual and

legal sense, the linked executable is a combined work, a derivative of the original library, and the ordinary General Public License treats it as such.

Because of this blurred distinction, using the ordinary General Public License for libraries did not effectively promote software sharing, because most developers did not use the libraries. We concluded that weaker conditions might promote sharing better.

However, unrestricted linking of non-free programs would deprive the users of those programs of all benefit from the free status of the libraries themselves. This Library General Public License is intended to permit developers of non-free programs to use free libraries, while preserving your freedom as a user of such programs to change the free libraries that are incorporated in them. (We have not seen how to achieve this as regards changes in header files, but we have achieved it as regards changes in the actual functions of the Library.) The hope is that this will lead to faster development of free libraries.

The precise terms and conditions for copying, distribution and modification follow. Pay close attention to the difference between a "work based on the library" and a "work that uses the library". The former contains code derived from the library, while the latter only works together with the library.

Note that it is possible for a library to be covered by the ordinary General Public License rather than by this special one.

TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

    0. This License Agreement applies to any software library which contains a notice placed by the copyright holder or other authorized party saying it may be distributed under the terms of this Library General Public License (also called "this License"). Each licensee is addressed as "you".

    A "library" means a collection of software functions and/or data prepared so as to be conveniently linked with application programs (which use some of those functions and data) to form executables.

    The "Library", below, refers to any such software library or work which has been distributed under these terms. A "work based on the Library" means either the Library or any derivative work under copyright law: that is to say, a work containing the Library or a portion of it, either verbatim or with modifications and/or translated straightforwardly into another language. (Hereinafter, translation is included without limitation in the term "modification".)

    "Source code" for a work means the preferred form of the work for making modifications to it. For a library, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the library.

    Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running a program using the Library is not restricted, and output from such a program is covered only if its contents constitute a work based on the Library (independent of the use of the Library in a tool for writing it). Whether

that is true depends on what the Library does and what the program that uses the Library does.

1. You may copy and distribute verbatim copies of the Library's complete source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and distribute a copy of this License along with the Library.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Library or any portion of it, thus forming a work based on the Library, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

    a) The modified work must itself be a software library.

    b) You must cause the files modified to carry prominent notices stating that you changed the files and the date of any change.

    c) You must cause the whole of the work to be licensed at no charge to all third parties under the terms of this License.

    d) If a facility in the modified Library refers to a function or a table of data to be supplied by an application program that uses the facility, other than as an argument passed when the facility is invoked, then you must make a good faith effort to ensure that, in the event an application does not supply such function or table, the facility still operates, and performs whatever part of its purpose remains meaningful.

    (For example, a function in a library to compute square roots has a purpose that is entirely well-defined independent of the application. Therefore, Subsection 2d requires that any application-supplied function or table used by this function must be optional: if the application does not supply it, the square root function must still compute square roots.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Library, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Library, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Library.

In addition, mere aggregation of another work not based on the Library with the Library (or with a work based on the Library) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may opt to apply the terms of the ordinary GNU General Public License instead of this License to a given copy of the Library. To do this, you must alter all the notices that refer to this License, so that they refer to the ordinary GNU General Public License, version 2, instead of to this License. (If a newer version than version 2 of the ordinary GNU General

Public License has appeared, then you can specify that version instead if you wish.) Do not make any other change in these notices.

Once this change is made in a given copy, it is irreversible for that copy, so the ordinary GNU General Public License applies to all subsequent copies and derivative works made from that copy.

This option is useful when you wish to copy part of the code of the Library into a program that is not a library.
4. You may copy and distribute the Library (or a portion or derivative of it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange.

If distribution of object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place satisfies the requirement to distribute the source code, even though third parties are not compelled to copy the source along with the object code.
5. A program that contains no derivative of any portion of the Library, but is designed to work with the Library by being compiled or linked with it, is called a "work that uses the Library". Such a work, in isolation, is not a derivative work of the Library, and therefore falls outside the scope of this License.

However, linking a "work that uses the Library" with the Library creates an executable that is a derivative of the Library (because it contains portions of the Library), rather than a "work that uses the library". The executable is therefore covered by this License. Section 6 states terms for distribution of such executables.

When a "work that uses the Library" uses material from a header file that is part of the Library, the object code for the work may be a derivative work of the Library even though the source code is not. Whether this is true is especially significant if the work can be linked without the Library, or if the work is itself a library. The threshold for this to be true is not precisely defined by law.

If such an object file uses only numerical parameters, data structure layouts and accessors, and small macros and small inline functions (ten lines or less in length), then the use of the object file is unrestricted, regardless of whether it is legally a derivative work. (Executables containing this object code plus portions of the Library will still fall under Section 6.)

Otherwise, if the work is a derivative of the Library, you may distribute the object code for the work under the terms of Section 6. Any executables containing that work also fall under Section 6, whether or not they are linked directly with the Library itself.
6. As an exception to the Sections above, you may also compile or link a "work that uses the Library" with the Library to produce a work containing portions of the Library, and distribute that work under terms of your choice, provided that the terms permit modification of the work for the customer's own use and reverse engineering for debugging such modifications.

You must give prominent notice with each copy of the work that the Library is used in it and that the Library and its use are covered by this License. You must supply a copy of this License. If the work during execution displays copyright notices, you must include the copyright notice for the Library among them, as well as a reference directing the user to the copy of this License. Also, you must do one of these things:

 a) Accompany the work with the complete corresponding machine-readable source code for the Library including whatever changes were used in the work (which must be distributed under Sections 1 and 2 above); and, if the work is an executable linked with the Library, with the complete machine-readable "work that uses the Library", as object code and/or source code, so that the user can modify the Library and then relink to produce a modified executable containing the modified Library. (It is understood that the user who changes the contents of definitions files in the Library will not necessarily be able to recompile the application to use the modified definitions.)

 b) Accompany the work with a written offer, valid for at least three years, to give the same user the materials specified in Subsection 6a, above, for a charge no more than the cost of performing this distribution.

 c) If distribution of the work is made by offering access to copy from a designated place, offer equivalent access to copy the above specified materials from the same place.

 d) Verify that the user has already received a copy of these materials or that you have already sent this user a copy.

 For an executable, the required form of the "work that uses the Library" must include any data and utility programs needed for reproducing the executable from it. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

 It may happen that this requirement contradicts the license restrictions of other proprietary libraries that do not normally accompany the operating system. Such a contradiction means you cannot use both them and the Library together in an executable that you distribute.

 7. You may place library facilities that are a work based on the Library side-by-side in a single library together with other library facilities not covered by this License, and distribute such a combined library, provided that the separate distribution of the work based on the Library and of the other library facilities is otherwise permitted, and provided that you do these two things:

 a) Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities. This must be distributed under the terms of the Sections above.

 b) Give prominent notice with the combined library of the fact that part of it is a work based on the Library, and explaining where to find the accompanying uncombined form of the same work.

 8. You may not copy, modify, sublicense, link with, or distribute the Library except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense, link with, or distribute the Library is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

9. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Library or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Library (or any work based on the Library), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Library or works based on it.

10. Each time you redistribute the Library (or any work based on the Library), the recipient automatically receives a license from the original licensor to copy, distribute, link with or modify the Library subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License.

11. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Library at all. For example, if a patent license would not permit royalty-free redistribution of the Library by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Library.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply, and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

12. If the distribution and/or use of the Library is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Library under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

13. The Free Software Foundation may publish revised and/or new versions of the Library General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Library specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software

Foundation. If the Library does not specify a license version number, you may choose any version ever published by the Free Software Foundation.

14. If you wish to incorporate parts of the Library into other free programs whose distribution conditions are incompatible with these, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

NO WARRANTY

15. BECAUSE THE LIBRARY IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE LIBRARY, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE LIBRARY "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE LIBRARY IS WITH YOU. SHOULD THE LIBRARY PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

16. END OF TERMS AND CONDITIONS

How to Apply These Terms to Your New Libraries

If you develop a new library, and you want it to be of the greatest possible use to the public, we recommend making it free software that everyone can redistribute and change. You can do so by permitting redistribution under these terms (or, alternatively, under the terms of the ordinary General Public License).

To apply these terms, attach the following notices to the library. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found.

one line to give the library's name and an idea of what it does.

This library is free software; you can redistribute it and/or modify it under the terms of the GNU Library General Public License as published by the Free Software Foundation; either version 2 of the License, or (at your option) any later version.

This library is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU Library General Public License for more details.

You should have received a copy of the GNU Library General Public License
along with this library; if not, write to the Free Software Foundation, Inc.,
51 Franklin St, Fifth Floor, Boston, MA 02110-1301, USA.

Also add information on how to contact you by electronic and paper mail.

You should also get your employer (if you work as a programmer) or your
school, if any, to sign a "copyright disclaimer" for the library, if
necessary. Here is a sample; alter the names:

Yoyodyne, Inc., hereby disclaims all copyright interest in
the library `Frob' (a library for tweaking knobs) written

W3C's notice and license became active on December 31 2002. This version removes the copyright ownership notice such that this license can be used with materials other than those owned by the W3C, reflects that ERCIM is now a host of the W3C, includes references to this specific dated version of the license, and removes the ambiguous grant of "use". Otherwise, this version is the same as the previous version and is written so as to preserve the Free Software Foundation's assessment of GPL compatibility and OSI's certification under the Open Source Definition.                   Version 1.1
--------------- 1. Definitions.   1.0.1. "Commercial Use" m
eans distribution or otherwise making the   Covered Code avai
lable to a third party.   1.1. "Contributor" means each enti
ty that creates or contributes to   the creation of Modificat
ions.   1.2. "Contributor Version" means the combination of
the Original   Code, prior Modifications used by a Contributo
r, and the Modifications   made by that particular Contributo
r.   1.3. "Covered Code" means the Original Code or Modifica
tions or the   combination of the Original Code and Modificat
ions, in each case   including portions thereof.   1.4. "
Electronic Distribution Mechanism" means a mechanism generally
   accepted in the software development community for the elect
ronic   transfer of data.   1.5. "Executable" means Cover
ed Code in any form other than Source   Code.   1.6. "Ini
tial Developer" means the individual or entity identified   a
s the Initial Developer in the Source Code notice required by Ex
hibit   A.   1.7. "Larger Work" means a work which combin
es Covered Code or   portions thereof with code not governed
by the terms of this License.   1.8. "License" means this do
cument.   1.8.1. "Licensable" means having the right to gran
t, to the maximum   extent possible, whether at the time of t
he initial grant or   subsequently acquired, any and all of t
he rights conveyed herein.   1.9. "Modifications" means any
addition to or deletion from the   substance or structure of
either the Original Code or any previous   Modifications. Whe
n Covered Code is released as a series of files, a   Modifica

tion is: A. Any addition to or deletion from the conte
nts of a file   containing Original Code or previous Mod
ifications.   B. Any new file that contains any part of
 the Original Code or   previous Modifications.   1.
10. "Original Code" means Source Code of computer software code
     which is described in the Source Code notice required by Ex
hibit A as   Original Code, and which, at the time of its rel
ease under this   License is not already Covered Code governe
d by this License.   1.10.1. "Patent Claims" means any paten
t claim(s), now owned or   hereafter acquired, including with
out limitation, method, process,   and apparatus claims, in
any patent Licensable by grantor.   1.11. "Source Code" mean
s the preferred form of the Covered Code for   making modific
ations to it, including all modules it contains, plus   any a
ssociated interface definition files, scripts used to control
   compilation and installation of an Executable, or source code
     differential comparisons against either the Original Code
or another   well known, available Covered Code of the Contri
butor's choice. The   Source Code can be in a compressed or a
rchival form, provided the   appropriate decompression or de-
archiving software is widely available   for no charge.
 1.12. "You" (or "Your") means an individual or a legal entity
     exercising rights under, and complying with all of the term
s of, this   License or a future version of this License issu
ed under Section 6.1.   For legal entities, "You" includes an
y entity which controls, is   controlled by, or is under comm
on control with You. For purposes of   this definition, "cont
rol" means (a) the power, direct or indirect,   to cause the
direction or management of such entity, whether by   contract
 or otherwise, or (b) ownership of more than fifty percent
(50%) of the outstanding shares or beneficial ownership of such
     entity. 2. Source Code License.   2.1. The Initial Dev
eloper Grant.   The Initial Developer hereby grants You a wor
ld-wide, royalty-free,   non-exclusive license, subject to th
ird party intellectual property   claims: (a) unde
r intellectual property rights (other than patent or   t
rademark) Licensable by Initial Developer to use, reproduce,
       modify, display, perform, sublicense and distribute the O
riginal   Code (or portions thereof) with or without Mod
ifications, and/or   as part of a Larger Work; and
       (b) under Patents Claims infringed by the making, using or
         selling of Original Code, to make, have made, use, pr
actice,   sell, and offer for sale, and/or otherwise dis
pose of the   Original Code (or portions thereof).
     (c) the licenses granted in this Section 2.1(a) and (b) ar
e   effective on the date Initial Developer first distri
butes   Original Code under the terms of this License.
       (d) Notwithstanding Section 2.1(b) above, no patent li
cense is   granted: 1) for code that You delete from the
 Original Code; 2)   separate from the Original Code; o
r 3) for infringements caused   by: i) the modification
of the Original Code or ii) the   combination of the Ori
ginal Code with other software or devices.   2.2. Contributo
r Grant.   Subject to third party intellectual property claim
s, each Contributor   hereby grants You a world-wide, royalty
-free, non-exclusive license   (a) under intellectual
property rights (other than patent or   trademark) Licen

sable by Contributor, to use, reproduce, modify,   displ
ay, perform, sublicense and distribute the Modifications
   created by such Contributor (or portions thereof) either on a
n   unmodified basis, with other Modifications, as Cover
ed Code   and/or as part of a Larger Work; and
    (b) under Patent Claims infringed by the making, using, or
        selling of Modifications made by that Contributor either
 alone   and/or in combination with its Contributor Vers
ion (or portions   of such combination), to make, use, s
ell, offer for sale, have   made, and/or otherwise dispo
se of: 1) Modifications made by that   Contributor (or p
ortions thereof); and 2) the combination of   Modificati
ons made by that Contributor with its Contributor   Vers
ion (or portions of such combination).   (c) the licens
es granted in Sections 2.2(a) and 2.2(b) are   effective
 on the date Contributor first makes Commercial Use of
 the Covered Code.   (d)   Notwithstanding Section 2.2
(b) above, no patent license is   granted: 1) for any co
de that Contributor has deleted from the   Contributor V
ersion; 2) separate from the Contributor Version;   3)
 for infringements caused by: i) third party modifications of
        Contributor Version or ii) the combination of Modificat
ions made   by that Contributor with other software (ex
cept as part of the   Contributor Version) or other devi
ces; or 4) under Patent Claims   infringed by Covered Co
de in the absence of Modifications made by   that Contri
butor. 3. Distribution Obligations.   3.1. Application of L
icense.   The Modifications which You create or to which You
contribute are   governed by the terms of this License, inclu
ding without limitation   Section 2.2. The Source Code versio
n of Covered Code may be   distributed only under the terms o
f this License or a future version   of this License released
 under Section 6.1, and You must include a   copy of this Lic
ense with every copy of the Source Code You   distribute. You
 may not offer or impose any terms on any Source Code   versi
on that alters or restricts the applicable version of this
License or the recipients' rights hereunder. However, You may in
clude   an additional document offering the additional rights
 described in   Section 3.5.   3.2. Availability of Sourc
e Code.   Any Modification which You create or to which You c
ontribute must be   made available in Source Code form under
the terms of this License   either on the same media as an Ex
ecutable version or via an accepted   Electronic Distribution
 Mechanism to anyone to whom you made an   Executable version
 available; and if made available via Electronic   Distributi
on Mechanism, must remain available for at least twelve (12)
 months after the date it initially became available, or at lea
st six   (6) months after a subsequent version of that partic
ular Modification   has been made available to such recipient
s. You are responsible for   ensuring that the Source Code ve
rsion remains available even if the   Electronic Distribution
 Mechanism is maintained by a third party.   3.3. Descriptio
n of Modifications.   You must cause all Covered Code to whic
h You contribute to contain a   file documenting the changes
You made to create that Covered Code and   the date of any ch
ange. You must include a prominent statement that   the Modif
ication is derived, directly or indirectly, from Original   C

ode provided by the Initial Developer and including the name of the   Initial Developer in (a) the Source Code, and (b) in any notice in an   Executable version or related documentation in which You describe the   origin or ownership of the Covered Code.   3.4. Intellectual Property Matters   (a) Third Party Claims.   If Contributor has knowledge that a license under a third party's   intellectual property rights is required to exercise the rights   granted by such Contributor under Sections 2.1 or 2.2,   Contributor must include a text file with the Source Code   distribution titled "LEGAL" which describes the claim and the party making the claim in sufficient detail that a recipient will   know whom to contact. If Contributor obtains such knowledge after   the Modification is made available as described in Section 3.2,   Contributor shall promptly modify the LEGAL file in all copies   Contributor makes available thereafter and shall take other steps   (such as notifying appropriate mailing lists or newsgroups)   reasonably calculated to inform those who received the Covered   Code that new knowledge has been obtained.   (b) Contributor APIs.   If Contributor's Modifications include an application programming   interface and Contributor has knowledge of patent licenses which   are reasonably necessary to implement that API, Contributor must   also include this information in the LEGAL file.   (c)   Representations.   Contributor represents that, except as disclosed pursuant to   Section 3.4(a) above, Contributor believes that Contributor's   Modifications are Contributor's original creation(s) and/or   Contributor has sufficient rights to grant the rights conveyed by this License.   3.5. Required Notices.   You must duplicate the notice in Exhibit A in each file of the Source   Code. If it is not possible to put such notice in a particular Source   Code file due to its structure, then You must include such notice in a   location (such as a relevant directory) where a user would be likely   to look for such a notice. If You created one or more Modification(s)   You may add your name as a Contributor to the notice described in   Exhibit A. You must also duplicate this License in any documentation   for the Source Code where You describe recipients' rights or ownership   rights relating to Covered Code. You may choose to offer, and to   charge a fee for, warranty, support, indemnity or liability   obligations to one or more recipients of Covered Code. However, You   may do so only on Your own behalf, and not on behalf of the Initial   Developer or any Contributor. You must make it absolutely clear than   any such warranty, support, indemnity or liability obligation is   offered by You alone, and You hereby agree to indemnify the Initial   Developer and every Contributor for any liability incurred by the   Initial Developer or such Contributor as a result of warranty,   support, indemnity or liability terms You offer.   3.6. Distribution of Executable Versions.   You may distribute Covered Code in Executable form only if the   requirements of Section 3.1-3.5 have been met for that Covered Code,   and if You include a notice stating that the Source Code version of   the Covered Code is available under the terms of this License,   including a description of how and where You have fulfil

led the   obligations of Section 3.2. The notice must be cons
picuously included   in any notice in an Executable version,
related documentation or   collateral in which You describe r
ecipients' rights relating to the   Covered Code. You may dis
tribute the Executable version of Covered   Code or ownership
 rights under a license of Your choice, which may   contain t
erms different from this License, provided that You are in
compliance with the terms of this License and that the license f
or the   Executable version does not attempt to limit or alte
r the recipient's   rights in the Source Code version from th
e rights set forth in this   License. If You distribute the E
xecutable version under a different   license You must make i
t absolutely clear that any terms which differ   from this Li
cense are offered by You alone, not by the Initial   Develope
r or any Contributor. You hereby agree to indemnify the   Ini
tial Developer and every Contributor for any liability incurred
by   the Initial Developer or such Contributor as a result of
 any such   terms You offer.   3.7. Larger Works.   Yo
u may create a Larger Work by combining Covered Code with other
code   not governed by the terms of this License and distribu
te the Larger   Work as a single product. In such a case, You
 must make sure the   requirements of this License are fulfil
led for the Covered Code. 4. Inability to Comply Due to Statute
 or Regulation.   If it is impossible for You to comply with
 any of the terms of this   License with respect to some or a
ll of the Covered Code due to   statute, judicial order, or r
egulation then You must: (a) comply with   the terms of this
License to the maximum extent possible; and (b)   describe th
e limitations and the code they affect. Such description   mu
st be included in the LEGAL file described in Section 3.4 and mu
st   be included with all distributions of the Source Code. E
xcept to the   extent prohibited by statute or regulation, su
ch description must be   sufficiently detailed for a recipien
t of ordinary skill to be able to   understand it. 5. Applic
ation of this License.   This License applies to code to whi
ch the Initial Developer has   attached the notice in Exhibit
 A and to related Covered Code. 6. Versions of the License.
   6.1. New Versions.   Netscape Communications Corporation (
"Netscape") may publish revised   and/or new versions of the
License from time to time. Each version   will be given a dis
tinguishing version number.   6.2. Effect of New Versions.
   Once Covered Code has been published under a particular vers
ion of the   License, You may always continue to use it under
 the terms of that   version. You may also choose to use such
 Covered Code under the terms   of any subsequent version of
the License published by Netscape. No one   other than Netsca
pe has the right to modify the terms applicable to   Covered
Code created under this License.   6.3. Derivative Works.
   If You create or use a modified version of this License (whic
h you may   only do in order to apply it to code which is not
 already Covered Code   governed by this License), You must (
a) rename Your license so that   the phrases "Mozilla", "MOZI
LLAPL", "MOZPL", "Netscape",   "MPL", "NPL" or any confusingl
y similar phrase do not appear in your   license (except to n
ote that your license differs from this License)   and (b) ot
herwise make it clear that Your version of the license   cont
ains terms which differ from the Mozilla Public License and

Netscape Public License. (Filling in the name of the Initial
  Developer, Original Code or Contributor in the notice describ
ed in   Exhibit A shall not of themselves be deemed to be mod
ifications of   this License.) 7. DISCLAIMER OF WARRANTY.
   COVERED CODE IS PROVIDED UNDER THIS LICENSE ON AN "AS IS" BA
SIS,   WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPL
IED, INCLUDING,   WITHOUT LIMITATION, WARRANTIES THAT THE COV
ERED CODE IS FREE OF   DEFECTS, MERCHANTABLE, FIT FOR A PARTI
CULAR PURPOSE OR NON-INFRINGING.   THE ENTIRE RISK AS TO THE
QUALITY AND PERFORMANCE OF THE COVERED CODE   IS WITH YOU. SH
OULD ANY COVERED CODE PROVE DEFECTIVE IN ANY RESPECT,   YOU (
NOT THE INITIAL DEVELOPER OR ANY OTHER CONTRIBUTOR) ASSUME THE
   COST OF ANY NECESSARY SERVICING, REPAIR OR CORRECTION. THIS
DISCLAIMER   OF WARRANTY CONSTITUTES AN ESSENTIAL PART OF THI
S LICENSE. NO USE OF   ANY COVERED CODE IS AUTHORIZED HEREUND
ER EXCEPT UNDER THIS DISCLAIMER. 8. TERMINATION.   8.1. Th
is License and the rights granted hereunder will terminate
automatically if You fail to comply with terms herein and fail t
o cure   such breach within 30 days of becoming aware of the
breach. All   sublicenses to the Covered Code which are prope
rly granted shall   survive any termination of this License.
Provisions which, by their   nature, must remain in effect be
yond the termination of this License   shall survive.   8
.2. If You initiate litigation by asserting a patent infringeme
nt   claim (excluding declatory judgment actions) against Ini
tial Developer   or a Contributor (the Initial Developer or C
ontributor against whom   You file such action is referred to
 as "Participant") alleging that: (a) such Participant's
 Contributor Version directly or indirectly   infringes any p
atent, then any and all rights granted by such   Participant
to You under Sections 2.1 and/or 2.2 of this License   shall,
 upon 60 days notice from Participant terminate prospectively,
   unless if within 60 days after receipt of notice You either:
 (i)   agree in writing to pay Participant a mutually agreeab
le reasonable   royalty for Your past and future use of Modif
ications made by such   Participant, or (ii) withdraw Your li
tigation claim with respect to   the Contributor Version agai
nst such Participant. If within 60 days   of notice, a reaso
nable royalty and payment arrangement are not   mutually agre
ed upon in writing by the parties or the litigation claim   i
s not withdrawn, the rights granted by Participant to You under
   Sections 2.1 and/or 2.2 automatically terminate at the expi
ration of   the 60 day notice period specified above.   (
b) any software, hardware, or device, other than such Participa
nt's   Contributor Version, directly or indirectly infringes
any patent, then   any rights granted to You by such Particip
ant under Sections 2.1(b)   and 2.2(b) are revoked effective
as of the date You first made, used,   sold, distributed, or
had made, Modifications made by that   Participant.   8.3
. If You assert a patent infringement claim against Participant
    alleging that such Participant's Contributor Version direc
tly or   indirectly infringes any patent where such claim is
resolved (such as   by license or settlement) prior to the in
itiation of patent   infringement litigation, then the reason
able value of the licenses   granted by such Participant unde
r Sections 2.1 or 2.2 shall be taken   into account in determ
ining the amount or value of any payment or   license.

8.4. In the event of termination under Sections 8.1 or 8.2 abov
e,   all end user license agreements (excluding distributors
and resellers)   which have been validly granted by You or an
y distributor hereunder   prior to termination shall survive
termination. 9. LIMITATION OF LIABILITY.   UNDER NO CIRCUMS
TANCES AND UNDER NO LEGAL THEORY, WHETHER TORT   (INCLUDING N
EGLIGENCE), CONTRACT, OR OTHERWISE, SHALL YOU, THE INITIAL
DEVELOPER, ANY OTHER CONTRIBUTOR, OR ANY DISTRIBUTOR OF COVERED
CODE,   OR ANY SUPPLIER OF ANY OF SUCH PARTIES, BE LIABLE TO
ANY PERSON FOR   ANY INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQ
UENTIAL DAMAGES OF ANY   CHARACTER INCLUDING, WITHOUT LIMITAT
ION, DAMAGES FOR LOSS OF GOODWILL,   WORK STOPPAGE, COMPUTER
FAILURE OR MALFUNCTION, OR ANY AND ALL OTHER   COMMERCIAL DAM
AGES OR LOSSES, EVEN IF SUCH PARTY SHALL HAVE BEEN   INFORMED
 OF THE POSSIBILITY OF SUCH DAMAGES. THIS LIMITATION OF   LIA
BILITY SHALL NOT APPLY TO LIABILITY FOR DEATH OR PERSONAL INJURY
     RESULTING FROM SUCH PARTY'S NEGLIGENCE TO THE EXTENT APPLI
CABLE LAW   PROHIBITS SUCH LIMITATION. SOME JURISDICTIONS DO
NOT ALLOW THE   EXCLUSION OR LIMITATION OF INCIDENTAL OR CONS
EQUENTIAL DAMAGES, SO   THIS EXCLUSION AND LIMITATION MAY NOT
 APPLY TO YOU. 10. U.S. GOVERNMENT END USERS.   The Covered
 Code is a "commercial item," as that term is defined in   48
 C.F.R. 2.101 (Oct. 1995), consisting of "commercial computer
   software" and "commercial computer software documentation," a
s such   terms are used in 48 C.F.R. 12.212 (Sept. 1995). Con
sistent with 48   C.F.R. 12.212 and 48 C.F.R. 227.7202-1 thro
ugh 227.7202-4 (June 1995),   all U.S. Government End Users a
cquire Covered Code with only those   rights set forth herein
. 11. MISCELLANEOUS.   This License represents the complete
 agreement concerning subject   matter hereof. If any provisi
on of this License is held to be   unenforceable, such provis
ion shall be reformed only to the extent   necessary to make
it enforceable. This License shall be governed by   Californi
a law provisions (except to the extent applicable law, if   a
ny, provides otherwise), excluding its conflict-of-law provision
s.   With respect to disputes in which at least one party is
a citizen of,   or an entity chartered or registered to do bu
siness in the United   States of America, any litigation rela
ting to this License shall be   subject to the jurisdiction o
f the Federal Courts of the Northern   District of California
, with venue lying in Santa Clara County,   California, with
the losing party responsible for costs, including   without l
imitation, court costs and reasonable attorneys' fees and   e
xpenses. The application of the United Nations Convention on
  Contracts for the International Sale of Goods is expressly exc
luded.   Any law or regulation which provides that the langua
ge of a contract   shall be construed against the drafter sha
ll not apply to this   License. 12. RESPONSIBILITY FOR CLAIM
S.   As between Initial Developer and the Contributors, each
 party is   responsible for claims and damages arising, direc
tly or indirectly,   out of its utilization of rights under t
his License and You agree to   work with Initial Developer an
d Contributors to distribute such   responsibility on an equi
table basis. Nothing herein is intended or   shall be deemed
to constitute any admission of liability. 13. MULTIPLE-LICENSED
 CODE.   Initial Developer may designate portions of the Cov
ered Code as   "Multiple-Licensed". "Multiple-Licensed" mean

s that the Initial   Developer permits you to utilize portion
s of the Covered Code under   Your choice of the NPL or the a
lternative licenses, if any, specified   by the Initial Devel
oper in the file described in Exhibit A. EXHIBIT A - Mozilla Pu

   the Work and Derivative Works thereof.   "Contribution" s
hall mean any work of authorship, including   the original v
ersion of the Work and any modifications or additions   to t
hat Work or Derivative Works thereof, that is intentionally
   submitted to Licensor for inclusion in the Work by the copyrig
ht owner   or by an individual or Legal Entity authorized to
 submit on behalf of   the copyright owner. For the purposes
 of this definition, "submitted"   means any form of electro
nic, verbal, or written communication sent   to the Licensor
 or its representatives, including but not limited to   comm
unication on electronic mailing lists, source code control syste
ms,   and issue tracking systems that are managed by, or on
behalf of, the   Licensor for the purpose of discussing and
improving the Work, but   excluding communication that is co
nspicuously marked or otherwise   designated in writing by t
he copyright owner as "Not a Contribution."   "Contributor"
 shall mean Licensor and any individual or Legal Entity   on
 behalf of whom a Contribution has been received by Licensor and
       subsequently incorporated within the Work.   2. Grant o
f Copyright License. Subject to the terms and conditions of
   this License, each Contributor hereby grants to You a perpetua
l,   worldwide, non-exclusive, no-charge, royalty-free, irre
vocable   copyright license to reproduce, prepare Derivative
 Works of,   publicly display, publicly perform, sublicense,
 and distribute the   Work and such Derivative Works in Sour
ce or Object form.   3. Grant of Patent License. Subject to th
e terms and conditions of   this License, each Contributor h
ereby grants to You a perpetual,   worldwide, non-exclusive,
 no-charge, royalty-free, irrevocable   (except as stated in
 this section) patent license to make, have made,   use, off
er to sell, sell, import, and otherwise transfer the Work,
 where such license applies only to those patent claims licensab
le   by such Contributor that are necessarily infringed by t
heir   Contribution(s) alone or by combination of their Cont
ribution(s)   with the Work to which such Contribution(s) wa
s submitted. If You   institute patent litigation against an
y entity (including a   cross-claim or counterclaim in a law
suit) alleging that the Work   or a Contribution incorporate
d within the Work constitutes direct   or contributory paten
t infringement, then any patent licenses   granted to You un
der this License for that Work shall terminate   as of the d
ate such litigation is filed.   4. Redistribution. You may rep
roduce and distribute copies of the   Work or Derivative Wor
ks thereof in any medium, with or without   modifications, a
nd in Source or Object form, provided that You   meet the fo
llowing conditions: (a) You must give any other recipient

s of the Work or   Derivative Works a copy of this Licen
se; and   (b) You must cause any modified files to carry pr
ominent notices   stating that You changed the files; an
d   (c) You must retain, in the Source form of any Derivati
ve Works   that You distribute, all copyright, patent, t
rademark, and   attribution notices from the Source form
 of the Work,   excluding those notices that do not pert
ain to any part of   the Derivative Works; and   (d
) If the Work includes a "NOTICE" text file as part of its
     distribution, then any Derivative Works that You distribute
 must   include a readable copy of the attribution notic
es contained   within such NOTICE file, excluding those
notices that do not   pertain to any part of the Derivat
ive Works, in at least one   of the following places: wi
thin a NOTICE text file distributed   as part of the Der
ivative Works; within the Source form or   documentation
, if provided along with the Derivative Works; or,   wit
hin a display generated by the Derivative Works, if and
  wherever such third-party notices normally appear. The content
s   of the NOTICE file are for informational purposes on
ly and   do not modify the License. You may add Your own
 attribution   notices within Derivative Works that You
distribute, alongside   or as an addendum to the NOTICE
text from the Work, provided   that such additional attr
ibution notices cannot be construed   as modifying the L
icense.   You may add Your own copyright statement to Your
modifications and   may provide additional or different lice
nse terms and conditions   for use, reproduction, or distrib
ution of Your modifications, or   for any such Derivative Wo
rks as a whole, provided Your use,   reproduction, and distr
ibution of the Work otherwise complies with   the conditions
 stated in this License.   5. Submission of Contributions. Unl
ess You explicitly state otherwise,   any Contribution inten
tionally submitted for inclusion in the Work   by You to the
 Licensor shall be under the terms and conditions of   this
License, without any additional terms or conditions.   Notwi
thstanding the above, nothing herein shall supersede or modify
     the terms of any separate license agreement you may have ex
ecuted   with Licensor regarding such Contributions.   6.
Trademarks. This License does not grant permission to use the tr
ade   names, trademarks, service marks, or product names of
the Licensor,   except as required for reasonable and custom
ary use in describing the   origin of the Work and reproduci
ng the content of the NOTICE file.   7. Disclaimer of Warranty
. Unless required by applicable law or   agreed to in writin
g, Licensor provides the Work (and each   Contributor provid
es its Contributions) on an "AS IS" BASIS,   WITHOUT WARRANT
IES OR CONDITIONS OF ANY KIND, either express or   implied,
including, without limitation, any warranties or conditions
 of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A
     PARTICULAR PURPOSE. You are solely responsible for determi
ning the   appropriateness of using or redistributing the Wo
rk and assume any   risks associated with Your exercise of p
ermissions under this License.   8. Limitation of Liability. I
n no event and under no legal theory,   whether in tort (inc
luding negligence), contract, or otherwise,   unless require
d by applicable law (such as deliberate and grossly   neglig

ent acts) or agreed to in writing, shall any Contributor be
  liable to You for damages, including any direct, indirect, spe
cial,   incidental, or consequential damages of any characte
r arising as a   result of this License or out of the use or
  inability to use the   Work (including but not limited to d
amages for loss of goodwill,   work stoppage, computer failu
re or malfunction, or any and all   other commercial damages
  or losses), even if such Contributor   has been advised of
the possibility of such damages.   9. Accepting Warranty or Ad
ditional Liability. While redistributing   the Work or Deriv
ative Works thereof, You may choose to offer,   and charge a
  fee for, acceptance of support, warranty, indemnity,   or o
ther liability obligations and/or rights consistent with this
    License. However, in accepting such obligations, You may act
  only   on Your own behalf and on Your sole responsibility,
not on behalf   of any other Contributor, and only if You ag
ree to indemnify,   defend, and hold each Contributor harmle
ss for any liability   incurred by, or claims asserted again
st, such Contributor by reason   of your accepting any such
warranty or additional liability.   END OF TERMS AND CONDITION

GNU GENERAL PUBLIC LICENSE

      Version 2, June 1991

      Copyright (C) 1989, 1991 Free Software Foundation, Inc.

      51 Franklin Street, Fifth Floor, Boston, MA 02110-1301,
      USA

      Everyone is permitted to copy and distribute verbatim copies
      of this license document, but changing it is not allowed.

      Preamble

      The licenses for most software are designed to take away your freedom
      to share and change it. By contrast, the GNU General Public License is
      intended to guarantee your freedom to share and change free software--
to
      make sure the software is free for all its users. This General Public
      License applies to most of the Free Software Foundation's software
      and to any other program whose authors commit to using it. (Some other
      Free Software Foundation software is covered by the GNU Lesser General
      Public License instead.) You can apply it to your programs, too.

      When we speak of free software, we are referring to freedom, not price.
      Our General Public Licenses are designed to make sure that you have
      the freedom to distribute copies of free software (and charge for
      this service if you wish), that you receive source code or can get
      it if you want it, that you can change the software or use pieces of
```

it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it.

For example, if you distribute copies of such a program, whether gratis or for a fee, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights.

We protect your rights with two steps: (1) copyright the software, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the software.

Also, for each author's protection and ours, we want to make certain that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original authors' reputations.

Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program proprietary. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all.

The precise terms and conditions for copying, distribution and modification follow.

TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0.
    This License applies to any program or other work which contains a

notice placed by the copyright holder saying it may be distributed
under the terms of this General Public License. The "Program", below,
refers to any such program or work, and a "work based on the Program"
means either the Program or any derivative work under copyright law:
that is to say, a work containing the Program or a portion of it,
either verbatim or with modifications and/or translated into another
language. (Hereinafter, translation is included without limitation
in the term "modification".) Each licensee is addressed as "you".

  Activities other than copying, distribution and modification are
not covered by this License; they are outside its scope. The act
of running the Program is not restricted, and the output from the
Program is covered only if its contents constitute a work based
on the Program (independent of having been made by running the
Program). Whether that is true depends on what the Program does.

1.
    You may copy and distribute verbatim copies of the Program's source
    code as you receive it, in any medium, provided that you
conspicuously
    and appropriately publish on each copy an appropriate copyright
notice
    and disclaimer of warranty; keep intact all the notices that refer to
    this License and to the absence of any warranty; and give any other
    recipients of the Program a copy of this License along with the
Program.

    You may charge a fee for the physical act of
    transferring a copy, and you may at your option
    offer warranty protection in exchange for a fee.

2.
    You may modify your copy or copies of the Program or any portion
    of it, thus forming a work based on the Program, and copy and
    distribute such modifications or work under the terms of Section
    1 above, provided that you also meet all of these conditions:

a)
    You must cause the modified files to carry prominent notices
    stating that you changed the files and the date of any change.

b)
    You must cause any work that you distribute or publish,
    that in whole or in part contains or is derived from the

Program or any part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License.

c)

If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under these conditions, and telling the user how to view a copy of this License. (Exception: if the Program itself is interactive but does not normally print such an announcement, your work based on the Program is not required to print an announcement.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Program, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Program.

In addition, mere aggregation of another work not based on the Program with the Program (or with a work based on the Program) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3.

You may copy and distribute the Program (or a work based on it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you also do one of the following:

a)

     Accompany it with the complete corresponding machine-readable
source

     code, which must be distributed under the terms of Sections 1 and
     2 above on a medium customarily used for software interchange;
or,

b)

     Accompany it with a written offer, valid for at least three
     years, to give any third party, for a charge no more than your
     cost of physically performing source distribution, a complete
     machine-readable copy of the corresponding source code, to
     be distributed under the terms of Sections 1 and 2 above
     on a medium customarily used for software interchange; or,

c)

     Accompany it with the information you received as to the offer
     to distribute corresponding source code. (This alternative
     is allowed only for noncommercial distribution and only if
     you received the program in object code or executable form
     with such an offer, in accord with Subsection b above.)

     The source code for a work means the preferred form of the work
     for making modifications to it. For an executable work, complete
     source code means all the source code for all modules it contains,
     plus any associated interface definition files, plus the scripts
     used to control compilation and installation of the executable.
     However, as a special exception, the source code distributed
     need not include anything that is normally distributed (in either
     source or binary form) with the major components (compiler,
     kernel, and so on) of the operating system on which the executable
     runs, unless that component itself accompanies the executable.

     If distribution of executable or object code is made by offering
     access to copy from a designated place, then offering equivalent
     access to copy the source code from the same place counts as
     distribution of the source code, even though third parties are
     not compelled to copy the source along with the object code.

4.

     You may not copy, modify, sublicense, or distribute the Program
     except as expressly provided under this License. Any attempt
     otherwise to copy, modify, sublicense or distribute the Program
     is void, and will automatically terminate your rights under
     this License. However, parties who have received copies, or

rights, from you under this License will not have their licenses
terminated so long as such parties remain in full compliance.

5.

You are not required to accept this License, since you have
not signed it. However, nothing else grants you permission to
modify or distribute the Program or its derivative works. These
actions are prohibited by law if you do not accept this License.
Therefore, by modifying or distributing the Program (or any
work based on the Program), you indicate your acceptance of this
License to do so, and all its terms and conditions for copying,
distributing or modifying the Program or works based on it.

6.

Each time you redistribute the Program (or any work based on the
Program), the recipient automatically receives a license from the
original licensor to copy, distribute or modify the Program subject
to
these terms and conditions. You may not impose any further
restrictions
on the recipients' exercise of the rights granted herein. You are not
responsible for enforcing compliance by third parties to this
License.

7.

If, as a consequence of a court judgment or allegation of patent
infringement or for any other reason (not limited to patent issues),
conditions are imposed on you (whether by court order, agreement
or otherwise) that contradict the conditions of this License,
they do not excuse you from the conditions of this License. If you
cannot distribute so as to satisfy simultaneously your obligations
under this License and any other pertinent obligations, then as a
consequence you may not distribute the Program at all. For example,
if a patent license would not permit royalty-free redistribution of
the Program by all those who receive copies directly or indirectly
through you, then the only way you could satisfy both it and this
License would be to refrain entirely from distribution of the
Program.

If any portion of this section is held invalid or
unenforceable under any particular circumstance, the
balance of the section is intended to apply and the section
as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe
any patents or other property right claims or to contest
validity of any such claims; this section has the sole purpose
of protecting the integrity of the free software distribution
system, which is implemented by public license practices. Many

people have made generous contributions to the wide range of
software distributed through that system in reliance on consistent
application of that system; it is up to the author/donor to
decide if he or she is willing to distribute software through
any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is
believed to be a consequence of the rest of this License.

8.
If the distribution and/or use of the Program is restricted in
certain countries either by patents or by copyrighted interfaces,
the original copyright holder who places the Program under this
License may add an explicit geographical distribution limitation
excluding those countries, so that distribution is permitted only
in or among countries not thus excluded. In such case, this License
incorporates the limitation as if written in the body of this
License.

9.
The Free Software Foundation may publish revised and/or new
versions of the General Public License from time to time. Such
new versions will be similar in spirit to the present version,
but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the
Program specifies a version number of this License which applies
to it and "any later version", you have the option of following
the terms and conditions either of that version or of any later
version published by the Free Software Foundation. If the Program
does not specify a version number of this License, you may choose
any version ever published by the Free Software Foundation.

10.
If you wish to incorporate parts of the Program into other free
programs whose distribution conditions are different, write to the
author to ask for permission. For software which is copyrighted by
the
Free Software Foundation, write to the Free Software Foundation; we
sometimes make exceptions for this. Our decision will be guided by
the
two goals of preserving the free status of all derivatives of our
free
software and of promoting the sharing and reuse of software
generally.

NO WARRANTY

11.
BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY
FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT
WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER
PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND,
EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE
IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR
PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF
THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU
ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

12.
IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING
WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR
REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR
DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL
DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM
(INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED
INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE
OF
THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER
OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

END OF TERMS AND CONDITIONS

How to Apply These Terms to Your New Programs

If you develop a new program, and you want it to be
of the greatest possible use to the public, the best
way to achieve this is to make it free software which
everyone can redistribute and change under these terms.

To do so, attach the following notices to the program. It is safest
to attach them to the start of each source file to most effectively
convey the exclusion of warranty; and each file should have at least
the "copyright" line and a pointer to where the full notice is found.

            Copyright (C)
            <
yyyy>
            <name of author>

            This program is free software; you can redistribute it and/or
            modify it under the terms of the GNU General Public License
            as published by the Free Software Foundation; either version
            2 of the License, or (at your option) any later version.

            This program is distributed in the hope that it will be
            useful, but WITHOUT ANY WARRANTY; without even the implied
            warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR
            PURPOSE. See the GNU General Public License for more details.

            You should have received a copy of the GNU General Public License
            along with this program; if not, write to the Free Software
Foundation,
            Inc., 51 Franklin Street, Fifth Floor, Boston, MA 02110-1301,
            USA.

            Also add information on how to
            contact you by electronic and paper mail.

            If the program is interactive, make it output a short
            notice like this when it starts in an interactive mode:

            Gnomovision version 69, Copyright (C) year name of author
            Gnomovision comes with ABSOLUTELY NO WARRANTY; for details
            type `show w'. This is free software, and you are welcome to
            redistribute it under certain conditions; type `show c' for details.

            The hypothetical commands `show w' and `show c' should show the
            appropriate parts of the General Public License. Of course, the
commands
            you use may be called something other than `show w' and `show c';
they

could even be mouse-clicks or menu items--whatever suits your
program.

You should also get your employer (if you work as a programmer)
or your school, if any, to sign a "copyright disclaimer" for
the program, if necessary. Here is a sample; alter the names:

Yoyodyne, Inc., hereby disclaims all copyright interest in the
program
`Gnomovision' (which makes passes at compilers) written by James
Hacker.

1 April 1989 Ty Coon, President of Vice

This General Public License does not permit incorporating your
program into
proprietary programs. If your program is a subroutine library, you
may
consider it more useful to permit linking proprietary applications
with the
library. If this is what you want to do, use the GNU Lesser General
Public License instead of this License.

Class Path Exception

            Linking this library statically or dynamically with other modules
is making a combined work based on this library. Thus, the terms and
conditions of the GNU General Public License cover the whole combination.

            As a special exception, the copyright holders of this library
give you permission to link this library with independent modules to produce
an executable, regardless of the license terms of these independent modules,
and to copy and distribute the resulting executable under terms of your
choice, provided that you also meet, for each linked independent module, the
terms and conditions of the license of that module. An independent module is
a module which is not derived from or based on this library. If you modify
this library, you may extend this exception to your version of the library,
but you are not obligated to do so. If you do not wish to do so, delete this
exception statement from your version.

GNU General Public License
Version 2, June 1991

Copyright (C) 1989, 1991 Free Software Foundation, Inc., 51 Franklin Street, Fifth Floor,Boston, MA 02110-1301 USA

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users. This General Public License applies to most of the Free Software Foundation's software and to any other program whose authors commit to using it. (Some other Free Software Foundation software is covered by the GNU Lesser General Public License instead.) You can apply it to your
programs, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you

wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it.

For example, if you distribute copies of such a program, whether gratis or for a fee, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights.

We protect your rights with two steps: (1) copyright the software, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the software.

Also, for each author's protection and ours, we want to make certain that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original authors' reputations.

Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program proprietary. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all.

The precise terms and conditions for copying, distribution and modification follow.

Terms and Conditions for Copying, Distribution and Modification

1. This License applies to any program or other work which contains a notice placed by the copyright holder saying it may be distributed under the terms of this General Public License. The "Program", below, refers to any such program or work, and a "work based on the Program" means either the Program or any derivative work under copyright law: that is to say, a work containing the Program or a portion of it, either verbatim or with modifications and/or translated into another language. (Hereinafter, translation is included without limitation in the term "modification".) Each licensee is addressed as "you".

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running the Program is not restricted, and the output from the Program is covered only if its contents constitute a work based on the Program (independent of having been made by running the Program).

Whether that is true depends on what the Program does.

2. You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this

License and to the absence of any warranty; and give any other recipients of the Program a copy of this License along with the Program.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

3. You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

   a. You must cause the modified files to carry prominent notices stating that you changed the files and the date of any change.

   b. You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License.

   c. If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under these conditions, and telling the user how to view a copy of this License. (Exception: if the Program itself is interactive but does not normally print such an announcement, your work based on the Program is not required to print an announcement.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Program, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Program.

In addition, mere aggregation of another work not based on the Program with the Program (or with a work based on the Program) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

4. You may copy and distribute the Program (or a work based on it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you also do one of the following:

   a. Accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,

b. Accompany it with a written offer, valid for at least three years, to give any third party, for a charge no more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,

  c. Accompany it with the information you received as to the offer to distribute corresponding source code. (This alternative is allowed only for noncommercial distribution and only if you received the program in object code or executable form with such an offer, in accord with Subsection b above.)

The source code for a work means the preferred form of the work for making modifications to it. For an executable work, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the executable. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code.

5. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

6. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Program or works based on it.

7. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License.

8. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the

Program at all. For example, if a patent license would not permit royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Program.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system, which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

9. If the distribution and/or use of the Program is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Program under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

10. The Free Software Foundation may publish revised and/or new versions of the General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Program specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of this License, you may choose any version ever published by the Free Software Foundation.

11. If you wish to incorporate parts of the Program into other free programs whose distribution conditions are different, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

NO WARRANTY

12. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND

FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND
PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE,
YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

13. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING
WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR
REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES,
INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING
OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO
LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR
THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER
PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE
POSSIBILITY OF SUCH DAMAGES.

END OF TERMS AND CONDITIONS

Arphic Public License

Copyright (C) 1999 Arphic Technology Co., Ltd.
11Fl. No.168, Yung Chi Rd., Taipei, 110 Taiwan

All rights reserved except as specified below.

Everyone is permitted to copy and distribute verbatim copies of this license
document, but changing it is forbidden.

Preamble

The licenses for most software are designed to take away your freedom to
share and change it.
By contrast, the ARPHIC PUBLIC LICENSE specifically permits and encourages
you to use this software, provided that you give the recipients all the
rights that we gave you and make sure they can get the modifications of this
software.

Legal Terms

0. Definitions:

Throughout this License, "Font" means the TrueType fonts "AR PL Mingti2L
Big5", "AR PL KaitiM Big5" (BIG-5 character set) and "AR PL SungtiL GB", "AR
PL KaitiM GB" (GB character set) which are originally distributed by Arphic,
and the derivatives of those fonts created through any modification including

modifying glyph, reordering glyph, converting format, changing font name, or adding/deleting some characters in/from glyph table.

"PL" means "Public License".

"Copyright Holder" means whoever is named in the copyright or copyrights for the Font.

"You" means the licensee, or person copying, redistributing or modifying the Font.

"Freely Available" means that you have the freedom to copy or modify the Font as well as redistribute copies of the Font under the same conditions you received, not price. If you wish, you can charge for this service.

1. Copying & Distribution

You may copy and distribute verbatim copies of this Font in any medium, without restriction, provided that you retain this license file (ARPHICPL.TXT) unaltered in all copies.

2. Modification

You may otherwise modify your copy of this Font in any way, including modifying glyph, reordering glyph, converting format, changing font name, or adding/deleting some characters in/from glyph table, and copy and distribute such modifications under the terms of Section 1 above, provided that the following conditions are met:

a) You must insert a prominent notice in each modified file stating how and when you changed that file.

b) You must make such modifications Freely Available as a whole to all third parties under the terms of this License, such as by offering access to copy the modifications from a designated place, or distributing the modifications on a medium customarily used for software interchange.

c) If the modified fonts normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the Font under these conditions, and telling the user how to view a copy of this License.

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Font, and can be reasonably considered independent and separate works in themselves, then this License and its terms, do not apply to those sections when you distribute them as separate works. Therefore, mere aggregation of another work not based on the Font with the Font on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. Condition Subsequent

You may not copy, modify, sublicense, or distribute the Font except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Font will automatically retroactively void your

rights under this License. However, parties who have received copies or rights from you under this License will keep their licenses valid so long as such parties remain in full compliance.

4. Acceptance

You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to copy, modify, sublicense or distribute the Font. These actions are prohibited by law if you do not accept this License. Therefore, by copying, modifying, sublicensing or distributing the Font, you indicate your acceptance of this License and all its terms and conditions.

5. Automatic Receipt

Each time you redistribute the Font, the recipient automatically receives a license from the original licensor to copy, distribute or modify the Font subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License.

6. Contradiction

If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Font at all. For example, if a patent license would not permit royalty-free redistribution of the Font by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Font.

If any portion of this section is held invalid or unenforceable under any particular circumstance,the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances.

7. NO WARRANTY

BECAUSE THE FONT IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE FONT, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS OR OTHER PARTIES PROVIDE THE FONT "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING BUT NOT LIMITED TO THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE FONT IS WITH YOU. SHOULD THE FONT PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

8. DAMAGES WAIVER

UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING, IN NO EVENT WILL ANY COPYRIGHTT HOLDERS, OR OTHER PARTIES WHO MAY COPY, MODIFY OR REDISTRIBUTE THE FONT AS PERMITTED ABOVE, BE LIABLE TO YOU FOR ANY DIRECT, INDIRECT, CONSEQUENTIAL, INCIDENTAL, SPECIAL OR EXEMPLARY DAMAGES ARISING OUT OF THE

USE OR INABILITY TO USE THE FONT (INCLUDING BUT NOT LIMITED TO PROCUREMENT OF
SUBSTITUTE GOODS OR SERVICES; LOSS OF USE, DATA OR PROFITS;OR BUSINESS
INTERRUPTION), EVEN IF SUCH HOLDERS OR OTHER PARTIES HAVE BEEN ADVISED OF THE
POSSIBILITY OF SUCH DAMAGES.

with the names "Info-ZIP" (or any variation thereof, including, but not

support for the altered versions.

    Info-ZIP retains the right to use the names "Info-ZIP," "Zip," "UnZip,"
"UnZipSFX," "WiZ," "Pocket UnZip," "Pocket Zip," and "MacZip" for its own
